DETAILED ACTION

Allowable Subject Matter

1. The following is an examiner's statement of reasons for allowance:
Although the prior art in Acar et al (US-204/0149035) and Wang et al (US-6293148) show gyroscopes with an active and passive mass, each suspended for vibration in two orthogonal directions, no prior art was found that reveals driving one of the masses in two orthogonal directions and sensing motion of the other mass in two orthogonal directions, particularly in an angular position sensor.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
